```html
<tr id="legalCaseDocument" class="legalCaseDocument">
    <td> </td>
    <td>
        <strong class="btn btn-danger">Supprimer</strong>
    </td>
    <td>
        <div>
            <div id="legal_case_form_legalCaseDocuments___name__">
                <input type="hidden"
                id="legal_case_form_legalCaseDocuments___name___preferredName"
                name="legal_case_form[legalCaseDocuments][__name__][preferredName]" id="documentPreferredName" />
                <input type="hidden"
                id="legal_case_form_legalCaseDocuments___name___path"
                name="legal_case_form[legalCaseDocuments][__name__][path]" />
                <div>
                    <div class="vich-file">
                        <input type="file"
                        id="legal_case_form_legalCaseDocuments___name___file_file"
                        name="legal_case_form[legalCaseDocuments][__name__][file][file]" />
                    </div>
                </div>
            </div>
        </div>
    </td>
</tr>
```

After index modification

```html
<tr id="legalCaseDocument" class="legalCaseDocument">
        <td> </td>
         <td>
                <strong class="btn btn-danger">Supprimer</strong>
        </td>
        <td>
                <div>
                        <div id="legal_case_form_legalCaseDocuments_2">
                                <input type="hidden"
